

VIZIO

7" LED LCD
PORTABLE TV

VMB070 – QUICK START GUIDE

WELCOME!

Thank you for purchasing the VIZIO 7" LED LCD Portable TV.

The TV's features include:

- Brilliant 800 x 480 high-resolution picture
- Built-in fold-away antenna
- Connects to DVD players and game consoles
- USB port for sharing digital photos
- Kickstand for hands-free viewing
- Easy-to-use remote
- Stylish carrying pouch

To register your TV, sign up for a VIZIO service plan, get product updates, or get the complete User Guide, visit www.VIZIO.com.

PACKAGE CONTENTS

7" LED LCD Portable TV

Remote

Carrying Pouch

Power Adapter

RF Adapter

Composite AV Cable

The TV will not receive free-to-air television programs while in motion. Do not use this device while operating a moving vehicle.

CONTROLLING THE TV

- Power/Standby:** Turn the TV on or off
- Info:** Display channel, time, battery status
- Back:** Go to previous on-screen menu
- Menu:** Display on-screen menu
- OK:** Select highlighted menu option
- Arrow:** Navigate on-screen menu or channel guide
- Exit:** Close on-screen menu

ON/OFF Switch: To use the TV when it is not plugged into a power outlet, move ON/OFF Switch to **ON**, then press **Power/Standby**. To extend battery life, move switch to **OFF** when the TV is not in use. When storing the TV, move switch to **OFF**.

- Guide:** Display channel guide (Digital channels only)
- Channel Up/Down:** Change channel up or down
- Mute:** Turn sound off or on
- Last:** Return to previous channel
- Volume Up/Down:** Increase or decrease volume
- Number Pad:** Enter a channel
- Input:** Change input device (AV/RF/USB)

GETTING STARTED

Connect the power adapter to the Power port on the TV.

Plug the power adapter into an electrical outlet.

Extend the kickstand and place the TV on a flat surface.

Remove the plastic tab from the remote.

EXTENDING THE ANTENNA

Swing the paddle out.

Gently pull the paddle away from the body of the TV.

Swing the paddle up.
Gently pull the antenna from the paddle until fully extended.

Do not close the paddle while the antenna is extended.

FIRST TIME SET UP (FREE-TO-AIR TELEVISION VIEWING)

1

For best channel reception, place the TV in an open area. Ensure antenna is extended.

2

MENU

POWER

Press the **Power** button on the remote, then press **MENU**.

3

Use the **Up/Down Arrow** buttons to select your language, then press **Right Arrow**.

4

Use the **Up/Down Arrow** buttons to select your time zone, then press **Right Arrow**.

5

Use the **Up/Down Arrow** buttons to select **Antenna**, then press **Right Arrow**.

6

Wait until channel scan is 100%, then press **Right Arrow**.

7

The first time set up is complete. Press **EXIT**.

The TV **will not** receive free-to-air television programs while in a moving vehicle.

SETTING UP FOR CABLE TV VIEWING

1

*Not included.

Turn the TV off.
Connect a coaxial cable* from the
wall outlet to the RF Adapter.

2

Gently connect the RF Adapter to the
RF port on the side of the TV.
Be sure the RF Adapter is completely connected.

3

Turn the TV on.
Press the **INPUT** button
on the remote.

4

Use the **Up/Down Arrow**
buttons on the remote to
select **RF**, then press **OK**.

5

Press **MENU**. Select **Settings >**
Tuner Settings >
Tuner Mode > Cable.

6

Press **BACK**. Select **Auto**
Channel Scan. When scan is
100%, press **EXIT**.

SETTING UP AN EXTERNAL ANTENNA

1

*Not included.

Turn the TV off.
Connect a coaxial cable from your
external antenna* to the RF Adapter.

2

Gently connect the RF Adapter to
the RF port on the side of the TV.
Be sure the RF Adapter is completely connected.

3

Turn the TV on.
Press the **INPUT** button
on the remote.

4

Use the **Up/Down Arrow**
buttons on the remote to
select **RF**, then press **OK**.

5

Press **MENU**. Select **Settings >**
Tuner Settings >
Tuner Mode > Antenna.

6

Press **BACK**. Select **Auto**
Channel Scan. When scan is
100%, press **EXIT**.

SETTING UP A COMPOSITE AV CONNECTION

1

Turn the TV off.
Connect the Composite AV Cable to your DVD player,
cable box, game console, or other device.

2

Connect the other end of the Composite AV Cable
to the AV port on the side of the TV.
Be sure the Composite AV Cable is completely connected.

3

Turn the TV on.
Press the **INPUT** button on the remote.

4

Use the **Up/Down Arrow** buttons on the remote
to select **AV**, then press the **OK** button.

USING THE TV AS A DIGITAL PHOTO FRAME

1

*Not included.

Gently connect your USB thumb drive* to the USB port on the side of the TV.

2

INPUT

Press the **INPUT** button on the remote.

3

Use the **Up/Down Arrows** to select **JPEG**, then press **OK**.

4

Use the **Up/Down Arrows** to select a JPG file, then press **OK**.

5

ARROW

ARROW

Use the **Left/Right Arrows** to view the next photo.

6

MENU

Press **MENU** to begin the slideshow.

Do not disconnect the USB thumb drive while the TV is on.

HELP TOPICS

The TV displays "No Signal"

- Press the **INPUT** button on the remote control to select a different input source.
- If you have a cable connected to the TV, see **Setting Up for Cable TV Viewing**.
- If you have an external antenna connected to the TV, see **Setting Up an External Antenna**.
- If you are in a moving vehicle, the TV will not receive free-to-air television signals.

There is no power.

- Make sure the ON/OFF switch is turned to **ON**, then press the **Power** button on the remote or TV.
- Ensure the power adapter is securely connected to an electrical outlet.
- Plug another electrical device into the electrical outlet to be sure the outlet is working.

There is a picture, but no sound.

- Press the **Volume UP** button on the remote, or touch the **Volume UP** control on the TV.
- Press the **MUTE** button on the remote to be sure mute is off.
- Ensure there are no headphones connected to the TV.

The screen is black.

- Make sure the ON/OFF switch is turned to **ON**, then press the **Power** button on the remote or TV.
- Press the **INPUT** button on the remote control to select a different input source.
- Ensure the TV's battery is fully charged. See **Getting Started** for instructions on plugging the TV in.
- Adjust backlight, brightness, and contrast. Press **MENU**, then select **Settings > Picture Settings**.

The colors do not display correctly.

- Adjust the color. Press **MENU**, then select **Settings > Picture Settings**.
- If you are using an antenna, ensure it is connected securely and correctly. Adjust the antenna or move the TV to get a better signal.

When I press buttons on the remote, nothing happens.

- When using the remote, point it directly at the TV.
- Remove any obstacles between the remote and the TV.
- Remove the clear plastic tab from the back of the remote.
- Replace the battery in the remote. (Battery type is CR2025.)

The picture quality seems low.

- If you are using an antenna, ensure it is connected securely and correctly. Adjust the antenna or move the TV to get a better signal.
- View high-definition (HD) programs when possible.
- If you are in a moving vehicle, the TV will not receive free-to-air television signals.

The display has pixels (dots) that do not change color.

- Your TV is precision-manufactured using a high level of technology. However, sometimes individual pixels may not display. This is common in this type of product and **does not** mean your TV is defective.

The display image does not cover the entire screen.

- Change the screen mode. Press MENU on the remote, then select **Settings > Screen Mode > Wide**.
- If there are still bars on the sides of the display image, they may be part of the image the TV is receiving.

No photos are displayed when I plug in my USB drive.

- Ensure your USB thumb drive is formatted to FAT32.
- Ensure each photo is JPG format (baseline) and is 4MB or smaller.
- Extremely high-resolution photos may not display correctly. Resize large photos on a computer before displaying on the TV.

ONE-YEAR LIMITED WARRANTY

ON PARTS AND LABOR

Covers units purchased as new in United States and Puerto Rico Only

VIZIO provides a warranty to the original purchaser of a new Product against defects in materials and workmanship for a period of one year of non-commercial usage and ninety (90) days of commercial use. If a Product covered by this warranty is determined to be defective within the warranty period, VIZIO will either repair or replace the Product at its sole option and discretion.

To obtain warranty service, contact VIZIO Technical Support via email: TechSupport@VIZIO.com or via phone at 877 MY VIZIO (877.698.4946) from 6:00AM to 9:00PM Monday through Friday and 8:00AM to 4:00PM Saturday and Sunday, Pacific Time, or visit www.VIZIO.com. PRE-AUTHORIZATION MUST BE OBTAINED BEFORE SENDING ANY PRODUCT TO A VIZIO SERVICE CENTER. Proof of purchase in the form of a purchase receipt or copy thereof is required to show that a Product is within the warranty period.

Parts and Labor

There will be no charge for parts or labor during the warranty period. Replacement parts and Products may be new or recertified at VIZIO's option and sole discretion. Replacement parts and Products are warranted for the remaining portion of the original warranty or for ninety (90) days from warranty service or replacement, whichever is greater.

Type of Service

Defective Products must be sent to a VIZIO service center to obtain warranty service. VIZIO is not responsible for transportation costs to the service center, but VIZIO will cover return shipping to the customer. PRE-AUTHORIZATION IS REQUIRED BEFORE SENDING ANY PRODUCT TO A VIZIO SERVICE CENTER FOR WARRANTY SERVICE.

Product returns to VIZIO's service centers must utilize either the original carton box and shipping material or packaging that affords an equal degree of protection. VIZIO Technical Support will provide instructions for packing and shipping the covered Product to the VIZIO service center.

Limitations and Exclusions

VIZIO's one-year limited warranty only covers defects in materials and workmanship. This warranty does not cover, for example: cosmetic damage, normal wear and tear, improper operation, improper voltage supply or power surges, signal issues, damages from shipping, acts of God, any type of customer misuse, modifications or adjustments, as well as installation and set-up issues or any repairs attempted by anyone other than by a VIZIO authorized service center. Products with unreadable or removed serial numbers, or requiring routine maintenance are not covered. This one year limited warranty does not cover Products sold "AS IS", "FACTORY RECERTIFIED", or by a non-authorized reseller.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE LISTED OR DESCRIBED ABOVE. ANY IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED IN DURATION TO THE PERIOD OF TIME SET FORTH ABOVE. VIZIO'S TOTAL LIABILITY FOR ANY AND ALL LOSSES AND DAMAGES RESULTING FROM ANY CAUSE WHATSOEVER INCLUDING VIZIO'S NEGLIGENCE, ALLEGED DAMAGE, OR DEFECTIVE GOODS, WHETHER SUCH DEFECTS ARE DISCOVERABLE OR LATENT, SHALL IN NO EVENT EXCEED THE PURCHASE PRICE OF THE PRODUCT. VIZIO SHALL NOT BE RESPONSIBLE FOR LOSS OF USE, LOSS OF INFORMATION OR DATA, COMMERCIAL LOSS, LOST REVENUE OR LOST PROFITS, OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS OR THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS OR EXCLUSIONS MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE. THIS WARRANTY IS SUBJECT TO CHANGE WITHOUT NOTICE.

CHECK www.VIZIO.com FOR THE MOST CURRENT VERSION.

LEGAL NOTICES

FCC Class B Radio Interference Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

Notice:

1. The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
2. Shielded interface cables and AC power cord, if any, must be used in order to comply with the emission limits.
3. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modification to this equipment. It is the responsibilities of the user to correct such interference.

Manufactured under license from Dolby Laboratories. Dolby and the double-D symbol are trademarks of Dolby Laboratories.

FCC Part 15

This device complies with Part 15 of the FCC Rules. Operation of this product is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply within the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced technician for help.

FCC warning

Changes or modifications not expressly approved by the party responsible for compliance with the FCC Rules could void the user's authority to operate this equipment.

This product qualifies for ENERGY STAR in the "factory default" setting and this is the setting in which power savings will be achieved. Changing the factory default picture settings or enabling other features will increase power consumption that could exceed the limits necessary to qualify for ENERGY STAR rating.

SAFETY INSTRUCTIONS

Your DTV is designed and manufactured to operate within defined design limits. Misuse may result in electric shock or fire. To prevent your DTV from being damaged, the following instructions should be observed for the installation, use, and maintenance of your DTV. Read the following safety instructions before operating your DTV. Keep these instructions in a safe place for future reference.

- To reduce the risk of electric shock or component damage, switch off the power before connecting other components to your DTV.
- Unplug the AC/DC power adapter before cleaning your DTV. A damp cloth is sufficient for cleaning your DTV. Do not use a liquid or a spray cleaner for cleaning your DTV. Do not use abrasive cleaners.
- Always use the accessories recommended by the manufacturer to insure compatibility.
- When moving your DTV from an area of low temperature to an area of high temperature, condensation may form in the housing. Wait before turning on your DTV to avoid causing fire, electric shock, or component damage.
- A distance of at least three feet should be maintained between your DTV and any heat source, such as a radiator, heater, oven, amplifier etc. Do not install your DTV close to smoke. Operating your DTV close to smoke or moisture may cause fire or electric shock.
- Slots and openings in the back and bottom of the cabinet are provided for ventilation. To ensure reliable operation of your DTV and to protect it from overheating, be sure these openings are not blocked or covered. Do not place your DTV in a bookcase or cabinet unless proper ventilation is provided.
- Never push any object into the slots and openings on your DTV cabinet. Do not place any objects on the top of your DTV. Doing so could short circuit parts causing a fire or electric shock. Never spill liquids on your DTV.
- Your DTV should be operated only from the type of power source indicated on the label. If you are not sure of the type of power supplied to your home, consult your dealer or local power company.
- Do not apply pressure or throw objects at your DTV. This may compromise the integrity of the display. The manufacturer's warranty does not cover user abuse or improper installations.
- The power cord must be replaced when using different voltage than the voltage specified. For more information, contact your dealer.
- When connected to a power outlet, power is always flowing into your DTV. To totally disconnect power, unplug the power cord.
- Do not overload power strips and extension cords. Overloading can result in fire or electric shock.
- The wall socket should be installed near your DTV and easily accessible.
- Only power of the marked voltage can be used for your DTV. Any other voltage than the specified voltage may cause fire or electric shock.
- Do not touch the power cord during lightning. To avoid electric shock, avoid handling the power cord during electrical storms.
- Unplug your DTV during a lightning storm or when it will not be used for long period of time. This will protect your DTV from damage due to power surges.
- Do not attempt to repair or service your DTV yourself. Opening or removing the back cover may expose you to high voltages, electric shock, and other hazards. If repair is required, contact your dealer and refer all servicing to qualified service personnel.
- Keep your DTV away from moisture. Do not expose your DTV to rain or moisture. If water penetrates into your DTV, unplug the power cord and contact your dealer. Continuous use in this case may result in fire or electric shock.
- Do not use your DTV if any abnormality occurs. If any smoke or odor becomes apparent, unplug the power cord and contact your dealer immediately. Do not try to repair your DTV yourself.
- Avoid using dropped or damaged appliances. If your DTV is dropped and the housing is damaged, the internal components may function abnormally. Unplug the power cord immediately and contact your dealer for repair. Continued use of your DTV may cause fire or electric shock.
- Do not install your DTV in an area with heavy dust or high humidity. Operating your DTV in environments with heavy dust or high humidity may cause fire or electric shock.
- To avoid injury, use care while antenna is extended.
- When unplugging your DTV, hold the AC/DC power adapter, not the cord. Pulling on the power cord may damage the wires inside the cord and cause fire or electric shock. When your DTV will not be used for an extended period of time, unplug the power cord.
- To reduce risk of electric shock, do not touch the connector with wet hands.
- Insert batteries in accordance with instructions. Incorrect polarities may cause the batteries to leak which can damage the remote control or injure the operator.
- If any of the following occurs, contact the dealer:
 - The power cord fails or frays.
 - Liquid sprays or any object drops into your DTV.
 - Your DTV is exposed to rain or other moisture.
 - Your DTV is dropped or damaged in any way.
 - The performance of your DTV changes substantially.

TELEVISION ANTENNA CONNECTION PROTECTION

External Television Antenna Grounding

If an outside antenna/satellite dish or cable system is to be connected to the TV, make sure that the antenna or cable system is electrically grounded to provide some protection against voltage surges and static charges. Article 810 of the National Electrical Code, ANSI/NFPA 70, provides information with regard to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of the grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements of the grounding electrode.

Lightning Protection

For added protection of the TV during a lightning storm or when it is left unattended or unused for long periods of time, unplug the TV from the wall outlet and disconnect the antenna or cable system.

Power Lines

Do not locate the antenna near overhead light or power circuits, or where it could fall into such power lines or circuits. Remember, the screen of the coaxial cable is intended to be connected to earth in the building installation.

TECHNICAL SUPPORT

Products are often returned due to a technical problem rather than a defective product that may result in unnecessary shipping charges billed to you. Our trained support personnel can often resolve the problem over the phone. For more information on warranty service or repair, after the warranty period, please contact our Support Department at the number below.

Customer support and quality service are integral parts of VIZIO's commitment to service excellence. For technical assistance contact our VIZIO Technical Support Department via email or phone. Please have your VIZIO model number, serial number, and date of purchase available before your call.
